Avaliação | *Grading and Assessment*

As metodologias de ensino adoptadas combinam a exposição teórica para dar aos estudantes as linhas principais das matérias tratadas, a análise de fontes históricas e o debate promovido sobre as leituras dos estudantes (orientadas pelo professor).

Realização de uma prova de avaliação e de um trabalho de investigação; apresentação oral das conclusões.

The teaching methodologies adopted are a mixed combination between the teacher's lecture, for providing students with the guidelines on the issues been treated, the analysis of historic sources and the debate promoted on the student's readings (oriented by the teacher).

The evaluation is based in three key moments: an assessment and a research project which the students should submit written and in class.
